

Program at a Glance

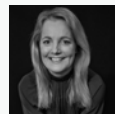

Transforming mining through confidence, safety, efficiency and decision support

Join mining professionals, technology leaders and Maptek experts in Perth for a day of practical insight, industry perspectives and future focused conversation. Hear how connected technologies and open workflows are helping teams build confidence, improve safety and operational efficiency, and make better decisions across the mining value chain.

Featured speakers

Eduardo Coloma
CEO, Maptek

Dr Penny Stewart
CEO, PETRA

Dr Tamara Vasey
CEO, Darkmine

Brett Birkbeck
Amazon Web Services

Simon Ratcliffe
Head of Experimentation
and Technology, Maptek

Frank Robinson
Covalent Lithium

Ben Barker
Covalent Lithium

Industry speakers from
BHP and Fortescue

What to expect

- An opening keynote from Maptek CEO Eduardo Coloma, joined by Maptek product leaders
- Customer and industry presentations spanning operational efficiency, orebody confidence and digital transformation
- A leadership panel exploring the ideas and technologies shaping mining's future
- Dedicated networking time with peers, speakers and Maptek specialists.

Morning program

Welcome, vision and operational impact

From Maptek's technology direction to customer experience and practical applications
