User Benefits

Modern, simplified software licensing

- Convenient access to licences anytime, anywhere
- Removes delays with licence issuing and access
- Removes need and risk from managing dongles

Streamlined support systems

- Convenient support requests from within applications
- Support case tracking and visibility
- Application and context-aware support system streamlines resolution
- Attach files to support cases for faster, higher quality support

Designed for flexibility

- Failsafe facilities for intermittent internet connectivity
- Borrowing facilities to continue working offline/in-field
- Borrowing to dongles for shifting between machines while offline
- Deferred support case submission during internet outages
